Ref: File No. 87-19/ AB105.296

Mr. Kleinbergs,

During our phone conversation on May 19, 1988 I requested a second extension for the submission of the discovery/monitoring well work plan. This letter is being sent to confirm the extension until June 24, 1988.

We are in the process of hiring a consulting firm to help us prepare the work plan. We have an appointment to meet with them this Thursday, May 26.

This entire investigation is further complicated by the continuing discharge to the drainage conduit by Somitex. Neither the written request by us nor the activity of the Water Board has prevented these releases.

We have retained a law firm to help us decide what legal options we have avaliable to us.

We appreciate the extension granted by the board. It should allow us time to properly consult with our attorneys and the consulting firm.

If you have any questions please give me a call.

Sincerely,

Robert A. Maki
Plant Manager
