Re: Utility Trailer Manufacturing Company

Dear Brett:

As you know, Utility Trailer Manufacturing Company ("Utility") is among those companies that may settle with the United States Environmental Protection Agency ("EPA") for EPA's claims related to the Interim Remedy and past response costs for the Puente Valley Operable Unit ("PVOU"). As part of this settlement and pursuant to the proposed Consent Decree with EPA, Utility would be obligated to provide access to its property. Therefore, we would like to clarify for the record that the correct Utility property address for investigation and other response actions in the PVOU is 17300 Chestnut Street. Utility's property located at 17295 East Railroad Street has never been the subject of any governmental investigation.

Should you have any questions, please do not hesitate to contact me at (213) 891-8386.

Truly yours,

Alanna R. Goldman
