Subject: Phase I Environmental Site Assessment
and Document Review
Los Altos Food Products
15130 East Nelson Avenue
City of Industry, California

Dear Mr. Radecki:

In accordance with our proposal dated May 24, 2007, Ardent Environmental Group, Inc. has performed a Phase I Environmental Site Assessment (ESA) and Document Review for the subject property (site). The following report documents our findings and provides opinions, conclusions, and recommendations regarding the environmental status of the site. We appreciate the opportunity to be of service to you on this project.

Sincerely,
Ardent Environmental Group, Inc.

EXECUTIVE SUMMARY

Ardent Environmental Group, Inc. (Ardent) was retained by Richards Watson & Gershon, on behalf of their client, Industry Urban-Development Agency to perform a Phase I Environmental Site Assessment (ESA) and Document Review for the property located at 15130 East Nelson Avenue in the City of Industry, California (site). The Industry Urban-Development Agency is considering taking title the site as part of a real estate trade. Document review and site assessment activities for this report were conducted between June 1, 2007 and June 24, 2007.

In summary, the following items were noted:

- The area of the site was used for agricultural purposes from before 1928 to at least the mid 1950s. The site may have been occupied by a small farm residence in the early 1950s. The properties surrounding the site were mostly developed by 1968. The site was vacant fallow land during the late 1950s and 1960s. The current site building was constructed in 1970/1971. The site has been used for food product manufacturing since it was first developed. At the time of this report, Los Altos Foods manufactures cheese products at the site.

- The site was occupied by a food product manufacturing company. Products manufactured at the site include various cheeses and cream. Hazardous substances and petroleum products used at the site generally include cleaning and disinfecting chemicals and lube oils for machinery and fork lifts. The cleaning and disinfecting chemicals are stored in diluted form in plastic drums and tanks in the chemical storage room at the southern corner of the site building. The cleaning and disinfecting chemicals include mild detergents, dilute chlorine solution, and dilute acidic solution. The cleaning chemicals are piped via plastic tubing from the storage room to the processing area where they are used daily to clean the food processing equipment, storage areas, and floors. The concrete floor of the production area is epoxy-coated to minimize erosion of the concrete by the cleaning chemicals. Petroleum products are used and stored in the maintenance area in the southwest portion of the site building. Several 5-gallon cans of food grade lube oil were stored in the maintenance storage room. Several 5-gallon cans of other various lube oils for machinery and forklifts were also stored in this area. The storage area appeared neat and orderly with no evidence of significant leaks or stains. Based on this information, the use and storage of these chemicals would not be considered and environmental concern to the site.

- No evidence was found for the current or former presence of underground storage tanks (USTs) at the site. Approximately eleven aboveground storage tanks (ASTs) were observed along the southeastern side of the site building. Four of ASTs contain milk, four of the ASTs contain whey, two of the ASTs contain water, and one of the ASTs contains carbon dioxide. The ASTs appeared to be in good condition and no evidence of significant spills or leaks from the ASTs was observed. These ASTs and their contents would not be considered an environmental concern to the site.

- Based on the date of construction (1970/1971), asbestos-containing materials (ACMs) and lead based paint (LBP) are likely to have been used in the building. The interior of the site has been significantly remodeled several times. It was reported that the entire interior of the site building was renovated in 1988. The second floor office addition on the back of the building was constructed in 2000. Based on the interior renovation work at the site, potential or suspected ACMs and LBP could not be identified visually; however, ACMs and LBP may be present in portions of the site building. These materials appeared to be in good condition and could not be considered an immediate concern to the site or occupants.

- Groundwater in the site vicinity is present at approximately 42 to 43 feet below the ground surface (bgs). The groundwater flow direction is generally to the northwest.

- The site is located within the San Gabriel Valley Groundwater Basin. Portions of the San Gabriel Valley Groundwater Basin have been listed on the National Priority List (NPL), or Superfund Site. The site is located within the Puente Valley Operable Unit of the San Gabriel Valley Groundwater Basin. Portions of the Puente Valley Operable Unit are contaminated with volatile organic compounds (VOCs), namely the chlorinated solvents trichloroethene (TCE) and tetrachloroethylene (PCE), which were historically used by the commercial and industrial facilities located in this area. Based on our review, surrounding facilities in the up-gradient direction have been named as Potentially Responsible Parties (PRPs), and therefore, it is likely that groundwater beneath the site has been impacted with chlorinated solvents. The site is not listed as a Responsible Party (RP) on the EPA database and there is no known current or historical use of chlorinated solvents at the site. It is unlikely that the site has contributed to the regional groundwater contamination.

- No off-site environmental concerns, other than the regional groundwater contamination, were identified in the site vicinity.

Ardent has performed this Phase I ESA and Document Review in general conformance with the scope and limitations of the American Society for Testing and Materials (ASTM) Practice E 1527-05, and the United States Environmental Protection Agency (USEPA) Standards and Practices for All Appropriate Inquiries (AAI), Final Rule (40 CFR, Part 312), for the property located at 15130 East Nelson Avenue in the City of Industry, California. Any limitations or exceptions encountered during completion of this report are stated in Section 1.4. No evidence or indication of recognized environmental conditions (RECs), or conditions indicative of releases or threatened releases of hazardous substances on, at, in, or to the subject property has been revealed. Although not considered an REC in accordance with ASTM Standards, ACMs and LBP may be present in portions of the site building.

Based on the findings of the Phase I ESA, Ardent does not recommend further investigations at this time. Prior to demolition or significant renovation of the on-site building, a comprehensive Hazardous Building Material Survey should be conducted to assess the extent and quantity of hazardous building materials. If present, these materials should be removed from the building prior to demolition or renovation. If the building is to be occupied by a tenant, the tenant should be notified of the possible presence of ACMs in accordance with current regulatory guidelines. Tenants do not need to be notified of possible LBP.

1. INTRODUCTION

Richards Watson & Gershon, on behalf of their client, Industry Urban-Development Agency, authorized Ardent Environmental Group, Inc. (Ardent) to perform a Phase I Environmental Site Assessment and Document Review (ESA) of the Los Altos Food Products (Los Altos) property located at 15130 East Nelson Avenue in the City of Industry, Los Angeles County, California (site, Figure 1). The work was conducted in general accordance with the proposal dated May 24, 2007, between Richards Watson & Gershon and Ardent. The Industry Urban-Development Agency is considering taking title of the site as part of a real estate trade. The following sections identify the purpose, the involved parties, the scope of work, and the limitations and exceptions associated with the Phase I ESA.

1.1. Purpose of Phase I ESA

In accordance with the American Society for Testing and Materials (ASTM) E 1527-05 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (ASTM Standard E 1527-05), the objective of the Phase I ESA is to identify, to the extent feasible pursuant to ASTM Standard E 1527-05, recognized environmental conditions (RECs), which are defined by ASTM as "the presence or likely presence of any hazardous substance or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, ground water, or surface water of the property."

The United States Environmental Protection Agency (EPA) has stated that ASTM Standard E 1527-05 is consistent with the Standards and Practices for All Appropriate Inquires (AAI), Final Rule (40 Code of Federal Regulations [CFR], Part 312) and is compliant with the statutory criteria for all appropriate inquires. All appropriate inquires, as defined in the AAI Final Rule, must be conducted by persons seeking the landowner liability protections under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) prior to acquiring a property or seeking or receiving federal Brownfields grants under the

authorities of CERCLA. The purpose of AAI, as defined in the AAI Final Rule, is to identify releases and threatened releases of hazardous substances which cause or threaten to cause the incurrence of response costs.

1.2. Involved Parties

Mr. Craig Metheny of Ardent conducted the historical research, site reconnaissance, regulatory inquiries, and document review. Mr. Roberts meets the definition of an *environmental professional* as set forth in the AAI Final Rule. Mr. Paul A. Roberts of Ardent performed project oversight and quality review.

1.3. Scope of Work

Ardent's scope of work for this Phase I ESA is consistent with ASTM Standard E1527-05 and included the activities listed below.

- **Review of User Provided Information** – Review of information regarding title and judicial records for environmental liens or activity and use limitations, recorded environmental liens, actual or specialized knowledge or commonly known information regarding environmental conditions at the site, the relationship of the purchase price of the property to the fair market value, readily available maps, environmental reports, and other environmental documents pertaining to the site, as available and obtained from the user/client.

- **Records Review** – Acquisition and review of records, including federal, state, tribal, and local regulatory agency databases, for the site and for properties located within a specified radius of the site; local regulatory agency files for the site and selected nearby properties of potential environmental concern; physical setting sources, including topographic maps, geologic maps, and geologic and hydrogeologic reference documents; and historic land use information including aerial photographs, historical fire insurance rate maps, building department records, and city directories, as necessary, that are reasonably ascertainable, publicly available, can be obtained within reasonable time and cost, and are practically reviewable.

- **Site Reconnaissance** – Performance of a site reconnaissance to visually observe the site and any structure(s) located on the site to the extent not obstructed by bodies of water, adjacent buildings, or other obstacles. The purpose of the site reconnaissance is to obtain information indicating the likelihood of identifying RECs in connection with the site, including the general site setting, site usage, use and storage of hazardous materials and petroleum products, disposal of waste products and materials, sources of poly-

chlorinated biphenyls (PCBs), and evidence of releases and possible risks of contamination from activities at adjacent properties.

- **Interviews** – Interviews with site representatives, including owners, occupants, and site managers, regarding the environmental condition of the site to the extent necessary and such persons are available. Interviews with state and/or local government officials as necessary.

- **Report** – Evaluation of the information and data obtained by the Phase I ESA process outlined above and preparation of this Phase I ESA report documenting findings and providing opinions and conclusions regarding possible environmental impacts and RECs at the site.

1.4. Limitations and Exceptions

The environmental services described in this report have been conducted in general accordance with current regulatory guidelines and the standard-of-care exercised by environmental consultants performing similar work in the project area. No warranty, expressed or implied, is made regarding the professional opinions presented in this report.

This document is intended to be used only in its entirety. No portion of the document, by itself, is designed to completely represent any aspect of the project described herein. Ardent should be contacted if the reader requires any additional information or has questions regarding the content, interpretations presented, or completeness of this document.

The findings, opinions, and conclusions are based on an analysis of the observed site conditions and the referenced literature. It should be understood that the conditions of a site could change with time as a result of natural processes or the activities of man at the subject property or nearby sites. In addition, changes to the applicable laws, regulations, codes, and standards of practice may occur due to government action or the broadening of knowledge. The findings of this report may, therefore, be invalidated over time, in part or in whole, by changes over which Ardent has no control. Ardent cannot warrant or guarantee that not finding indicators of any particular hazardous material means that this particular hazardous material or any other hazardous materials do not exist on the site. Additional research, in-

cluding invasive testing, can reduce the uncertainty, but no techniques now commonly employed can eliminate the uncertainty altogether.

1.5. Special Terms and Conditions

As indicated in Section 13.1.5 of ASTM Standard E 1527-05, the following, which is not intended to be all inclusive, represents out-of-scope items with respect to a Phase I ESA: ACMs, radon, LBP, lead in drinking water, wetlands, regulatory compliance, cultural and historic risk, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality, biological agents, and mold. As part of our agreement with the client, Ardent visually assessed site buildings (if present) for possible ACMs, LBP, and mold.

This study did not include an evaluation of geotechnical conditions or potential geologic hazards. In addition, Ardent did not address interpretations of zoning regulations, building code requirements, or property title issues.

1.6. User Reliance

This report, and the information, data, and the conclusions contained herein regarding the environmental condition of the site may be relied upon by the Industry Urban-Development Agency, the City of Industry (the "City") and their successors, and their respective program managers, attorneys, consultants, and appraisers of the site, as well as the designed developer of the site, and may be submitted and relied upon by: 1) the Regional Water Quality Control Board, Los Angeles Region (RWQCB), 2) the EPA, 3) the County of Los Angeles, 4) the City, 5) the Department of Toxic Substances Control (DTSC), and 6) other state, federal, and local governmental agencies and entities, as part of their evaluation of the risk associated with the development or use of the site, and for the purpose of assessing the environmental condition of the site, issuing permits, licenses, and other authorizations to develop the site, and determining whether further environmental review or study is necessary, and that the Industry Urban-Development Agency, the City and Richards Watson & Gershon, and, ultimately, the designed developer of the site can conduct construction and related activities on and develop the site.

1.7. Physical Limitations

No physical limitations (e.g., locked rooms, fenced areas) were encountered during the site reconnaissance. At the time of the site reconnaissance, the weather was sunny and clear.

1.8. Data Gaps

No significant data gaps were noted during the preparation of this Phase I ESA report.

2. GENERAL SITE CHARACTERISTICS

The following sections describe the location and the current uses of the site. The uses of adjacent properties are also described.

2.1. Location and Legal Description

The site is located at 15130 East Nelson Avenue in the City of Industry, Los Angeles County, California (Figure 1). The site is designated as Assessor's Parcel Number (APN) 8208-011-011. A legal description of the site is presented in the Preliminary Title Report in Appendix C.

The site is bounded as shown on Figure 2. The site boundary information was obtained during a site reconnaissance by Ardent and from the assessor's parcel map. A copy of the assessor's map that includes the site parcel is provided in Appendix A.

2.2. Site Description and Current Site Uses/Operations

The following paragraphs present a description of the structures present at the site, the tenants currently occupying the site, the activities being conducted on-site, the heating and cooling systems utilized in the site building, the sewage disposal system, and the potable water provider for the site, if any.

2.2.1. Site Description and Current Occupants

The site consists of a rectangular property comprising approximately 2.04 acres and is currently occupied by a food products (cheese) manufacturing facility (Los Altos). The site contains one 37,200 square foot building.

2.2.2. Heating and Cooling Systems

Heating and cooling systems in the office areas of the site buildings are gas and electric powered, respectively. Southern California Edison (SCE) supplies electricity to the site and the Southern California Gas Company provides natural gas to the site. Steam boilers at the site are natural gas powered.

2.2.3. Sewage Disposal/Septic Systems

Sewage disposal is provided to the site by the Los Angeles County Sanitation District. There is no evidence that septic systems have been used at the site.

2.2.4. Potable Water

Potable water is provided to the City of Industry by six different water purveyors, including San Gabriel Valley Water, Suburban Water Systems, Rowland Water Systems, La Puente Valley Water District, City of Industry Water Works, and the Walnut Valley Water District. There are no water supply wells located at the site.

2.3. Adjacent Properties

In general, the site vicinity is occupied by commercial/warehouse and residential properties (Figure 2). Current uses of adjoining properties are the following:

- Northeast: East Nelson Avenue, followed by single family residences.
- Northwest: Commercial/warehouse.
- Southwest: Commercial/warehouse and textile manufacturing.
- Southeast: Parking lot for Alcoa Fastening Systems.

3. USER PROVIDED INFORMATION

The following sections summarize information provided by the user to assist the environmental professional in identifying the possibility of RECs in connection with the subject property, and to fulfill the user's responsibilities in accordance with Section 6 of ASTM Standard E 1527-05. A copy of the user questionnaire as completed by Mr. Kevin Radecki of Industry Urban-Development Agency is presented in Appendix C.

3.1. Current Title Information

A preliminary title report for the site was provided by the client to Ardent for review. The title report was prepared by Fidelity National Title Company and dated May 29, 2007. According to the preliminary title report, the current owner of the site is Raul Andrade and Gloria Andrade, Trustees of the Raul Andrade and Gloria Andrade Family Trust. A copy of the preliminary title report is provided in Appendix C.

3.2. Environmental Liens or Activity and Use Limitations

Our review of the preliminary title report did not reveal records of environmental liens or activity and use limitations (AULs) associated with the subject property. In addition, Mr. Radecki was not aware of any environmental liens or AULs against the subject property that are filed or recorded under federal, state, or local law.

3.3. Specialized Knowledge

Mr. Radecki indicated that, for purposes of this assessment, the client has no specialized knowledge or experience pertaining to the site or the adjacent properties that is material to RECs in connection with the subject property.

3.4. Commonly Known or Reasonably Ascertainable Information

No commonly known or reasonably ascertainable information pertaining to the site that is material to RECs in connection with the subject property was noted by Ardent, or communicated to us in writing, in person, or during phone conversations for purposes of this

assessment. Mr. Radecki reported that it is commonly known that the site has been used in the past for the manufacturing and distribution of dairy products and specialty cheeses.

3.5. Valuation Reduction for Environmental Issues

In a transaction involving the purchase of a parcel of commercial real estate, the user shall consider the relationship of the purchase price of the property to fair market value of the property if the property was not affected by hazardous substances or petroleum products. Mr. Radecki indicated the purchase price reflects fair market value.

3.6. Reason for Performing Phase I ESA

Ardent was retained by Richard Watson & Gershon, on behalf of their client, Industry Urban-Development Agency, to perform the Phase I ESA as part of the real estate due diligence activities.

3.7. Other User Provided Information

Richards Watson & Gershon provided Ardent with a previous environmental assessment report for the site. A Phase I ESA was completed for the site by West Coast Environmental and Engineering (West Coast) for Union Bank of California, dated June 6, 2006. West Coast described the site with the same use and similar conditions as those observed by Ardent during its site reconnaissance (Section 6). West Coast concluded that no evidence of recognized environmental concerns was revealed with the exception of the potential for agricultural chemicals (pesticides) to be present in the shallow soil beneath the site due to historic agricultural use of the site and that a historic farm house that may have been located on the site during the 1950s may have had a septic system or underground storage tanks associated with it. Based on these conclusions, West Coast recommended that, if the site is redeveloped in the future, consideration should be given to obtaining soil samples and analyzing them for agricultural chemical. No recommendation for additional assessment was made to investigate historic features related to the former farm house at the site. Based on the results of West Coast's Phase I ESA and information obtained by Ardent, there has been no indication

that large quantity storage, mixing or use of agricultural chemicals were conducted at the site. Applied agricultural chemicals typically affect the upper portion of the soil and migrate slowly through this media. Based on this information and the fact that the soils have been reworked during development of the site, there is a low likelihood, on our opinion, that elevated concentrations of agricultural chemicals are present at the site. Ardent, therefore, does not concur with West Coast that soil sampling is necessary. As presented herein, Ardent concurs with West Coast that no RECs are present at the site. No other user information was provided to Ardent.

4. PHYSICAL SETTING

The following sections include discussions of topographic, geologic, and hydrogeologic conditions in the vicinity of the site based upon Ardent's document review and our visual reconnaissance of the site and adjacent areas.

4.1. Site Topography

The site is generally flat with a gentle slope to the west. Based on the review of the United States Geological Survey (USGS) 7.5 Minute Series, Baldwin Park, California, Topographic Quadrangle Map, dated 1966 and photorevised in 1981, the site has an approximate elevation of 310 feet above mean sea level (MSL).

4.2. Geology

The site is located in the west-end of the Puente Valley, an east-west trending valley, bounded to the south by the Puente Hills and to the north by the San Jose Hills. The area is underlain by alluvial deposits of Quaternary age. The source area of these deposits is the local hills to the south and north. The deposits consist of clay to boulder size materials with sand and silt sizes predominating. The thickness of the alluvial deposits overlying bedrock is approximately 1,000 feet.

4.3. Site Hydrology

The following sections discuss the site hydrology in terms of both surface waters and groundwater.

4.3.1. Surface Waters

Surface water runoff from the subject site is via sheet flow to the curb and gutter system in East Nelson Avenue. Surface water runoff in the site vicinity generally follows surficial topography toward the west. No natural surface water bodies, including ponds, streams, or other bodies of water, are present on or adjacent to the site. The nearest surface water body is Puente Creek located approximately 800 feet northwest of the site. San Jose Creek is located approximately 3,900 feet southwest of the site.

4.3.2. Groundwater

The site is located within the San Gabriel Valley Groundwater Basin. Portions of the San Gabriel Valley Groundwater Basin have been listed on the National Priority List (NPL), or Superfund Site. The site is located within the Puente Valley Operable Unit of the San Gabriel Valley Groundwater Basin. Portions of the Puente Valley Operable Unit are contaminated with volatile organic compounds (VOCs), namely the chlorinated solvents trichloroethene (TCE) and tetrachloroethylene (PCE), which were historically used by the commercial and industrial facilities located in this area. Based on our review, surrounding facilities have been named as Potentially Responsible Parties (PRPs), and therefore, it is likely that groundwater beneath the site has been impacted with chlorinated solvents. The site is not listed as a Responsible Party (RP) on the EPA database.

No information was available for depth to groundwater at the site. Information on the depth and flow direction of groundwater in the site vicinity was reviewed at the State Water Resources Control Board (SWRCB) GeoTracker website (www.geotracker.swrcb.ca.gov). Groundwater information at a facility located ap-

proximately 2,600 feet southeast of the site was reviewed. Groundwater has recently been measured at this facility at a depth of approximate 42 to 43 feet below ground surface (bgs). Historically (1988 to present), the depth to groundwater has ranged from 38 to 52 feet bgs. The groundwater flow direction is to the northwest. The depth to groundwater and flow direction at the site is expected to be similar.

5. HISTORICAL LAND USE

Ardent conducted a historical land use record search for the site and surrounding areas. This included a review of one or more of the following sources that were found to be both reasonably ascertainable and useful for the purposes of this Phase I ESA: historical aerial photographs, historical fire insurance maps, historical city directories, building permits and plans, topographic maps, property tax records, and zoning/land use records.

5.1. Summary of Historical Land Use of the Property

The area of the site was used for agricultural purposes from before 1928 to at least the mid 1950s. The site may have been occupied by a small farm residence in the early 1950s. The properties surrounding the site were mostly developed by 1968. The site was vacant fallow land during the late 1950s and 1960s. The current site building was constructed in 1971/1971. The site has been used for food product manufacturing since it was first developed. At the time of this report, Los Altos manufactures cheese products at the site.

5.2. Summary of Historical Land Use of Adjoining Properties

Properties adjoining the site were used for agricultural purposes from before 1928 to the 1960s. During this time, East Nelson Avenue was present as a dirt road. Also present during this time were scattered farm houses and related out-buildings in the site vicinity. Significant development activity occurred in the site vicinity during the 1960s and 1970s. During this period East Nelson Avenue and North Unruh Avenue became paved roads, the commercial buildings surrounding the site were constructed, and residences were constructed north and

northeast of the site. The site vicinity has been fully developed similar to current conditions since approximately 1980.

5.3. Historical Aerial Photographs

Historical aerial photographs for selected years between 1928 and 2006 were provided by Environmental Data Resources, Inc. (EDR) of Milford, Connecticut and the Google Earth website. The following presents a summary of our review.

- **1928 and 1938** – The site and adjacent properties consisted of agricultural property. There were no structures on or adjacent to the site. East Nelson Avenue was present as a dirt road. Railroad tracks were present approximately 500 feet southwest of the site. Puente Creek (unlined) was present approximately 800 feet northwest of the site. Scattered farm houses and related out-buildings were located throughout the site vicinity.

- **1952** – The site and adjacent properties continued to be used for agricultural purposes. A small farm residence or other related structure was present on or adjacent to the site. The site vicinity appeared similar to the 1938 photograph, except that there were more farm houses and agriculture related buildings in the area.

- **1968** – The site appeared to be vacant fallow land. Adjacent properties to the northwest, southwest, and southeast were developed with industrial/warehouse buildings. East Nelson Avenue and North Unruh Avenue were present as paved roads. The area northeast of East Nelson Avenue was developed with singe-family residences. Puente Creek, northeast of the site, appeared to be a concrete lined channel.

- **1976** – The site appeared to be developed with the current building. The site vicinity appeared similar to the 1968 photograph with the exception of increased commercial and industrial development south and southeast of the site.

- **1990, 1994, 2002, and 2006** – The site and site vicinity appeared similar to the current conditions.

5.4. Historical Topographic Maps

Ardent reviewed USGS 7.5 Minute Series, Baldwin Park Quadrangle Topographic Maps dated 1953, 1966, 1972, and photorevised in 1981. The 1953 map showed the site and surrounding properties as agricultural. The 1966 map showed the site as vacant with commercial buildings located northwest and southeast of the site. The 1972 and 1981 maps showed the site and vicinity similar to the current configuration.

5.5. Fire Insurance Rate Maps

Fire insurance rate maps are not available for the site vicinity.

5.6. Building Permits

Building permits for the site were reviewed at the Los Angeles County Department of Building and Safety office in La Puente, California. The permit records showed that the site building was originally constructed in 1970/1971. In 1986, the office area was renovated and a second floor was added over the office area. In 1988 the entire interior of the building was renovated including new floors and drains. In 2000, the second floor extension of the office area was constructed in the back of the building. Permits for various improvements from 1972 to 2004 were included in the records. No permits of environmental concern were found.

5.7. City Directories

Ardent requested an historical city directory review from EDR for the site and site vicinity. Selected city directories dated 1971 through 2005 were reviewed for addresses along East Nelson Avenue. EDR reported that the street was not listed in the directories. A copy of the city directory report is provided in Appendix C. Based on our review of the previous Phase I ESA by West Coast, the site has been occupied by food processing companies since the 1970s. Occupants reported in the previous Phase I ESA are summarized in Table 1, below.

Table 1 – Summary of Historical Occupants

Year	Address	Occupants
1966	**15130 E. Nelson Ave.**	**Not Listed**
	15150 E. Nelson Ave.	Rankin S Lite-Lift Overhead Door Co.
1971	15110 E. Nelson Ave.	Wolsey Company
	15130 E. Nelson Ave.	**Not Listed**
	15150 E. Nelson Ave.	Rankin S Lite-Lift Overhead Door Co.

Table 1 – Summary of Historical Occupants

Year	Address	Occupants
1975	15110 E. Nelson Ave.	Arts & Crafts Warehouse and Wolsey Co.
	15130 E. Nelson Ave.	**Cal Best Foods and Cal Food Machinery**
	15150 E. Nelson Ave.	Rankin S Lite-Lift Overhead Door Co.
1980	15110 E. Nelson Ave.	Arts & Crafts Warehouse and Wolsey Co.
	15130 E. Nelson Ave.	**Cal Best Foods**
	15150 E. Nelson Ave.	Rankin S Lite-Lift Overhead Door Co.
1985	15110 E. Nelson Ave.	Arts & Crafts Warehouse and Wolsey Co.
	15130 E. Nelson Ave.	**The Best Cookie Co.**
	15150 E. Nelson Ave.	Rankin Overhead Door Sales Inc.
1995	15110 E. Nelson Ave.	CJ & Associates
	15130 E. Nelson Ave.	**Cotia Cheese Co., Ideal Specialties, and California Gourmet Dairy Products**
	15150 E. Nelson Ave.	No Listing
2003	15110 E. Nelson Ave.	Western Binding
	15130 E. Nelson Ave.	**Los Altos Foods, The Cheese Products Plaza, and Raul Andrade**
	225 N. Unruh Ave.	ATL Garment Dye & Laundry
	239 N. Unruh Ave.	Trevive and Steve Han

Addresses in **bold** text indicate on-site addresses

Addresses above and below the on-site addresses represent the nearest listed addresses to the site.

5.8. Oil and Gas Maps

According to the Regional Wildcat Map W1-5 prepared by the State of California, Department of Conservation, Division of Oil, Gas, and Geothermal Resources (DOGGR), there are no active, abandoned, or idle oil or natural gas wells on the site. The nearest wells are two plugged and abandoned dry holes located within approximately 0.5 mile from the site. The site is not located within an active oil field.

5.9. Interviews

Interviews were conducted by Ardent with key site personnel (e.g., past and present owners, operators, and/or occupants), with the objective of obtaining information indicating RECs in connection with the subject property. The following are the site personnel interviewed for purposes of this assessment, and a summary of their comments with regards to site conditions.

5.9.1. Interview with Owner

Mr. Gilberto (last name not given), Maintenance Supervisor for Los Altos Foods and designated representative of the site owner, was interviewed. Gilberto was unaware of environmental concerns with the subject property or additional environmental reports (other than those provided to Ardent and discussed herein).

5.9.2. Interview with Site Manager

Gilberto, Maintenance Supervisor for Los Altos Foods, escorted Mr. Metheny through the site during the site reconnaissance and provided information regarding current operations, the use and storage of hazardous materials, and the generation and disposal of hazardous wastes. Information provided by Gilberto is presented in Section 6 of this report.

5.9.3. Interviews with Occupant

As noted above, the maintenance supervisor for the site was interviewed. Results of these interviews are presented in Section 6.

5.9.4. Interviews with Local Government Officials

Some representatives with local government agencies were interviewed. Results of these interviews are presented throughout the report.

5.9.5. Interviews with Others

No other interviews were conducted during this Phase I ESA.

5.10. Previous Reports and Documents

As previously discussed in Section 3.7 of this report, one previous environmental report was provided to Ardent for review. Please refer to Section 3.7 for a summary of this report.

6. SITE RECONNAISSANCE

On June 20, 2007, Mr. Craig Metheny of Ardent conducted a site reconnaissance. The reconnaissance involved a walking tour of the site and visual observations of adjoining properties. At the time of the site reconnaissance, the weather was clear. Selected photographs taken during the site reconnaissance are included in Appendix B.

6.1. Physical Limitations

Access was provided to all areas of the site and physical limitations were not encountered during the site reconnaissance.

6.2. Use and Storage of Hazardous Substances and Petroleum Products

The site was occupied by a food product manufacturing company. Products manufactured at the site include various cheeses and cream. Hazardous substances and petroleum products used at the site generally include cleaning and disinfecting chemicals and lube oils for machinery and fork lifts. The cleaning and disinfecting chemicals are stored in diluted form in plastic drums and tanks in the chemical storage room at the southern corner of the site building (Figure 2). The cleaning and disinfecting chemicals include mild detergents, dilute chlorine solution, and dilute acidic solution. The cleaning chemicals are piped via plastic

tubing from the storage room to the processing area where they are used daily to clean the food processing equipment, storage areas, and floors. The concrete floor of the production area is epoxy-coated to minimize erosion of the concrete by the cleaning chemicals.

Petroleum products are used and stored in the maintenance area in the southwest portion of the site building. Several 5-gallon cans of food grade lube oil were stored in the maintenance storage room. Several 5-gallon cans of other various lube oils for machinery and forklifts were also stored in this area. The storage area appeared neat and orderly with no evidence of significant leaks or stains.

6.3. Storage and Disposal of Hazardous Wastes

The maintenance supervisor reported that small quantities of waste oil are generated periodically from the maintenance of machinery and forklifts. Following removal of the oil from machines or forklifts, the oil is immediately taken to a storage drum located outside in the equipment storage area of the parking lot. The waste oil is periodically picked up by an outside licensed hazardous waste disposal company. Evidence of on-site disposal of hazardous waste fluids were not found during the reconnaissance.

6.4. Unidentified Substance Containers

Unidentified substance containers were not observed at the site. Empty chemical containers (cleaners and disinfectants) are stored in the south corner of the site parking lot.

6.5. Aboveground and Underground Storage Tanks (ASTs and USTs)

No evidence was found for the current or former presence of USTs at the site. Approximately eleven ASTs were observed along the southeastern side of the site building. Four of ASTs contain milk, four of the ASTs contain whey, two of the ASTs contain water, and one of the ASTs contains carbon dioxide. The ASTs appeared to be in good condition and no evidence of significant spills or leaks from the ASTs was observed.

6.6. Evidence of Releases

Evidence of significant chemical releases on site (i.e., odors, stressed vegetation, stains, leaks, pools of liquids, and spills) was not observed during the site reconnaissance.

6.7. Polychlorinated Biphenyls (PCBs)

Electrical transformers may be a potential source of PCBs. One pad-mounted electrical transformer was observed on-site at the northeastern corner of the site building. The transformer is owned by Southern California Edison. No evidence of leaks from the transformer was observed. Based on this information, this feature would not be considered an environmental concern to the site.

6.8. Suspect Asbestos Containing Materials (ACMs)

Based on the date of construction (1970/1971) asbestos-containing materials (ACMs) are likely to have been used in the building. The manufacture of most ACMs was phased out in the 1970s, ending in 1980. Previously manufactured ACMs that were in stock continued to be used through the mid-1980s. Some non-friable (and non-regulated) ACMs are still manufactured (e.g. roofing mastics). In general, buildings constructed after 1981 have a negligible potential to contain friable ACMs and a low potential for most non-friable ACMs, with the exception of roofing materials.

The interior of the site has been significantly remodeled several times. It was reported that the entire interior of the site building was renovated in 1988. The second floor office addition on the back of the building was constructed in 2000. Based on the interior renovation work at the site, potential or suspected ACMs could not be identified visually.

6.9. Suspect Lead-Based Paint (LBP)

Based on the date of construction (1970/1971) lead-based paint (LBP) is likely to have been used in the building. The manufacture of LBP was phased out in approximately 1978. In general, buildings constructed after 1980 have a negligible potential to contain LBP.

The interior of the site has been significantly remodeled several times. It was reported that the entire interior of the site building was renovated in 1988. The second floor office addition on the back of the building was constructed in 2000. Based on the interior renovation work at the site, potential or suspected LBP cold not be identified visually.

6.10. Wastewater Systems

Wastewater is generated at site by the daily cleaning of food process equipment and floors. The wastewater is collected in a trench drain that traverses the production area and is discharged directly to the sewer. A sewer discharge sampling port is located on the southeast side of the site building where samples are periodically collected and tested for excess solids and food products. A drain at the milk delivery area is reported to also drain to the sewer. No other wastewater systems were observed at the site during the site reconnaissance.

6.11. Storm Water Systems

Storm water generally flows northward from the site via sheet flow to the curb and gutter system in East Nelson Avenue. Storm water drains were observed in the loading docks and in the vicinity of the steam boiler. No drywells or catch basins were observed on or adjacent to the site.

6.12. Wells

During the site reconnaissance, no groundwater production wells were observed on the site or in the vicinity of the site. No groundwater monitoring wells were observed on the site.

6.13. Water Damage or Mold Growth

No visual indications of water damage or mold growth were observed in the site buildings.

6.14. Other Issues

No other issues were noted on site during the site reconnaissance.

7. ENVIRONMENTAL DATABASE SEARCH

A computerized environmental information database search was performed by EDR for this Phase I ESA on May 25, 2007. The database search included federal, state, local, and tribal databases. A summary of the environmental databases searched, their corresponding search radii, and number of noted facilities of environmental concern is presented in Appendix D. In addition, a description of the assumptions and approach to the database search is provided in Appendix D. The review was conducted to evaluate whether the site or properties within the vicinity of the site have been reported as having experienced significant unauthorized releases of hazardous substances or other events with potentially adverse environmental effects.

Nineteen unmapped properties were identified in the database report due to poor or inadequate address information. Based on the limited location information provided for these properties, it was determined that most of the unmapped properties are located greater than 1 mile from the site and are not considered and environmental concern to the site. Three of the unmapped properties were located within 1 mile of the site and are discussed in the relevant sections below.

The following paragraphs describe the databases that contain noted properties of environmental concern, and include a discussion of the regulatory status of the facilities and potential environmental impact to the subject site.

7.1. Federal National Priorities List (NPL): Distance Searched – 1 mile

The NPL is the USEPA's database of uncontrolled or abandoned hazardous waste properties identified for priority remedial actions under the Superfund program. This database includes proposed NPL listings.

Neither the site nor properties located within a 1-mile radius from the site were listed on this database. The site is located within the San Gabriel Valley Groundwater Basin. Portions of the San Gabriel Valley Groundwater Basin have been listed on the NPL, or Superfund Site. The site is located within the Puente Valley Operable Unit of the San Gabriel Valley Groundwater Basin. Portions of the Puente Valley Operable Unit are contaminated with VOCs, namely the chlorinated solvents TCE and PCE, which were historically used by

commercial and industrial facilities located in this area. Based on our review, the site is not named as an RP, although, many properties in the surrounding site vicinity have been named, and therefore, it is likely that groundwater beneath the site has been impacted with chlorinated solvents.

7.2. Federal Delisted NPL: Distance Searched – 1 mile

This database contains delisted NPL properties under the Superfund program. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the USEPA uses to delist properties from the NPL. In accordance with 40 Code of Federal Regulations (CFR) 300.425. (e), properties may be delisted from the NPL where no further response is appropriate.

Neither the site nor properties located within a 1-mile radius from the site were listed on this database.

7.3. Federal NPL Liens: Distance Searched – Site

This list identifies properties that have liens filed against real property by the EPA in order to recover remediation action expenditures.

The site was not listed on this database.

7.4. Federal Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) List: Distance Searched – 0.5 mile

The CERCLIS database contains properties which are either proposed or on the NPL and properties which are in the screening and assessment phase for possible inclusion on the NPL. This database also includes properties listed as No Further Remedial Action Planned (NFRAP).

The site was not listed. One facility, Brough Industries, located approximately 500 feet west (crossgradient) of the site, was listed. The CERCLIS listing for this facility indicated that an

EPA-funded preliminary assessment was performed in February 1993. The facility was researched on the EPA's Superfund Site Information website. The information on the website indicated that the facility was not on the NPL and that a Site Investigation was needed. Based on the crossgradient direction from the site, this facility is not considered an environmental concern to the site. No other facilities were listed within a 0.5-mile radius of the site.

7.5. Federal Corrective Action Report (CORRACTS): Distance Searched – 1 mile

The USEPA maintains this database of Resource Conservation and Recovery Act (RCRA) facilities that are undergoing corrective action. A corrective action order is issued when there has been a release of hazardous waste or constituents into the environment from a RCRA facility.

Neither the site nor properties located within a 1-mile radius from the site were listed on this database.

7.6. Federal Resource Conservation and Recovery Act (RCRA) Treatment, Storage, and Disposal (TSD) Facilities List: Distance Searched – 0.5 mile

The RCRA TSD database (non-CORRACTS) is a compilation by the EPA of facilities that report generation, storage, transportation, treatment, or disposal of hazardous waste.

Neither the site nor properties located within a 1-mile radius from the site were listed on this database.

7.7. Federal RCRA Generators List: Distance Searched – Site and Adjoining Properties

This list identifies sites that generate hazardous waste as defined by RCRA. Inclusion on this list is for permitting purposes and is not indicative of a release.

The site was not listed on this database. One of the current occupants of adjoining properties and two former occupants of adjoining properties were listed. Alcoa Fasteners located south

of the site was listed as a large quantity generator of hazardous waste. Wolsey Company, former located northwest of the site was listed as a small quantity generator of hazardous waste. Rankin Overhead Door Inc., formerly located southeast of the site was listed as a small quantity generator of hazardous waste. Alcoa Fasteners and Rankin Overhead Door are located in upgradient directions from the site. Neither of these properties are listed by the Regional Water Quality Control Board as a potentially responsible party for the regional groundwater contamination.

7.8. Federal Institutional Control/Engineering Control Registries: Distance Searched – Site

These lists identify properties with engineering and/or institutional controls. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on the site. Deed restrictions are generally required as part of the institutional controls.

The site was not listed.

7.9. Federal Emergency Response Notification System (ERNS) List: Distance Searched – Site

The ERNS database, maintained by the USEPA, contains information on reported releases of oil and hazardous substances.

The site was not listed on this database.

7.10. Federal Brownfield List: Distance Searched – 0.5 mile

The USEPA Brownfield database, entitled Targeted Brownfield's Assessments (TBA), lists properties for which the USEPA is providing funding and/or technical support for environ-

mental assessments and investigations. The objective of the TBA is to promote cleanup and redevelopment of undesirable properties with environmental issues.

Neither the site nor properties located within a 0.5-mile radius from the site were listed on this database.

7.11. Federal Toxic Release Inventory Database (TRIS): Distance Searched – Site

The Community Right to Know Act (SARA Title III) required the USEPA to establish this inventory of toxic chemical emissions from certain facilities.

The site was not listed on this database.

7.12. State Calsites Database (Calsites) or State-Equivalent CERCLIS: Distance Searched – 1 mile

The Calsites database, also known as the State-equivalent CERCLIS, is maintained by the Cal-EPA, DTSC. This database contains information on AWP and both known and potentially contaminated properties. Two-thirds of these properties have been classified, based on available information, as needing NFA by the DTSC. The remaining properties are in various stages of review and remediation to determine if a problem exists. These properties are presented by EDR on the Historical Cal-Sites database and the Envirostor databases.

The site was not listed on these databases. One facility, Excide Technologies/GNB Batteries, located over 0.5 mile in the downgradient direction from the site was listed on the Envirostor database. No information was provided in the listing except that an evaluation was performed by the Los Angles County Fire Department and that the case was referred to another local agency in January 2006. Based on the distance and direction of this facility from the site, this facility is not considered an environmental concern to the site.

7.13. State Solid Waste Landfill Sites (SWLF): Distance Searched – 0.5 mile

The SWLF database consists of open and closed solid waste disposal facilities and transfer stations. The data comes from the Integrated Waste Management Board's Solid Waste Information System (SWIS) and the State Water Resources Control Board's (SWRCB) Waste Management Unit Database (WMUD) database.

The site was not listed on this database. One transfer station operated by the Los Angeles County Department of Public Works was listed approximately 0.5 miles west-southwest (crossgradient) of the site. Based on the type of facility, distance, and direction from the site, this facility is not considered an environmental concern to the site.

7.14. State Leaking Underground Storage Tank (LUST) Lists: Distance Searched – 0.5 mile

The EDR database of LUST information system is obtained from by the SWRCB and the RWQCB. Ardent also reviewed the SWRCB GeoTracker website and the SCVWD database.

Neither the site nor current adjacent properties were listed. A total of 15 LUST cases were listed within 0.5-mile of the site. Five of these LUST facilities are located within 0.25-mile of the site. The nearest LUST case to the site is the former Rankin Overhead Door facility located adjacent to the southeast. This facility had a discovery of a release in 1993 (likely during tank removal) from a hydrocarbon tank (likely gasoline or diesel fuel). Remediation activities were performed in 1995 and the case was closed by the regulatory agency in 1996. The release was reported to have only impacted soil. The next closest LUST facility is the former Techalloy Company located approximately 500 feet west (crossgradient) of the site. This facility had a discovery of a release in 1991 during removal of a diesel fuel tank. The case was closed by regulatory agencies in 1993. The release was reported to have only impacted soil.

Based on the case status, these facilities are not considered an environmental concern to the site. Based on the distance, direction and/or regulatory status, the remaining thirteen LUST cases are not considered an environmental concern to the site.

7.15. State Index of Properties with Hazardous Waste – CORTESE List: Distance Searched – 1 mile

The CORTESE database is provided by Cal-EPA and is a state index that identifies potential and confirmed hazardous waste sites throughout California.

The site was not listed on this database. Fifteen facilities were listed in the CORTESE database. Each of these facilities was listed due to its listing on the LUST database. As discussed in the LUST section, above, these facilities would not be considered an environmental concern to the site.

7.16. State Underground Storage Tank (UST) and Aboveground Storage Tank (AST) Registration List: Distance Searched – Site and Adjoining Properties

UST and AST databases are provided by the SWRCB. Inclusion on these lists is for permitting purposes and is not indicative of a release.

The site was not listed on this database. One adjacent property (135 N. Unruh Ave.) was listed on the Historic UST database as ScrewCorp, and was also listed on the AST database as Aerospace Products (A.K.A. Alcoa Fasteners). No information regarding the AST was provided in the report. The Historic UST was reported to be a 3,000-gallon gasoline tank installed in 1975. No other information regarding the Historic UST was provided in the report. Because this facility is not listed in the current UST database or in the LUST database, the Historic UST was likely removed at some time and no release was reported. Therefore, the Historic UST is not considered an environmental concern to the site. Other adjoining properties were not listed on this database.

7.17. State Brownfield List and State Institutional Control/Engineering Control Registries: Distance Searched – 0.5 mile

The DTSC maintains the Site Mitigation and Brownfields Reuse Program (SMBRP) that lists properties that are undergoing cleanup with DTSC oversight (see State Deed Restriction Listing in EDR report). The database includes properties with one or more deed restrictions, and therefore, includes institutional and engineering control registries.

Neither the site nor properties located within a 0.5-mile radius from the site were listed on this database.

7.18. State Voluntary Cleanup Programs (VCPs): Distance Searched – 0.5 mile

The State VCP database lists low threat level properties with either confirmed or unconfirmed releases. Project proponents have requested that the DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

Neither the site nor properties located within a 0.5-mile radius from the site were listed on this database.

7.19. Indian Reservations: Distance Searched – 1 mile

This list depicts Indian administered lands of the United States that have an area equal to or greater than 640 acres. No Indian Reservations or Indian controlled land was listed within a 1-mile radius from the Property. Due to the lack of Indian Reservations with 1-mile of the Property, other tribal database listings required by ASTM and AAI were deemed not applicable. These listings would include tribal-equivalent NPL, CERCLIS, Landfill and/or Solid Waste Disposal, LUST, UST and AST Registrations, Institutional Control/Engineering Control Registries, VCPs, and Brownfields.

7.20. Other Non-ASTM and AAI Database: Distance Searched – Site

Other databases are readily available, but are not required by ASTM or AAI. The site was listed on the following databases.

7.20.1. Hazardous Waste Information System (HAZNET)

The information presented in the HAZNET database is obtained from copies of hazardous waste manifests received by the DTSC.

Los Altos Foods was listed in the HAZNET database due to manifesting of hazardous wastes. The listing indicates that Los Altos Foods has had waste oil and mixed oil removed from the site under manifest and taken to and off-site oil recycler.

8. REGULATORY RECORDS REVIEW

Environmental regulatory records for the site and selected adjacent properties were obtained and reviewed from the Los Angeles County Department of Public Works (LACDPW), RWQCB, DTSC, Los Angeles County Fire Department (LACFD), South Coast Air Quality Management District (SCAQMD), and the Los Angeles County Sanitation District (LACSD).

8.1. Los Angeles County Department of Public Works (LACDPW)

The LACDPW maintains UST records for the City of Industry. The LACDPW's database listing was checked and no listing for the site address was found.

8.2. Regional Water Quality Control Board, Los Angeles Region (RWQCB)

The RWQCB maintains files for LUST cases, SLIC cases, and Well Investigation Program (WIP) cases. Records were requested for the site address for each type of case files. The RWQCB replied to our request indicating that there are no LUST, SLIC, or WIP case files for the site address.

8.3. Department of Toxic Substances Control (DTSC)

Records for the site addresses were requested from the Glendale and Cypress, California offices of the DTSC. File clerks for both offices replied to our requests indicating that the DTSC has no records pertaining to the site.

8.4. South Coast Air Quality Management District (SCAQMD)

SCAQMD permit records for the site were reviewed online using the Facility Information Detail (FIND) search tool on the SCAQMD's website. Copies of some of the permits were available to download from the website. Copies of these permits are provided in Appendix C.

SCAQMD permits for the site included permits for a boiler and internal combustion engine blower dated 1992 and 1995, respectively, and permits for a boiler and selective catalytic reduction system (air pollution control system for the boiler) dated 2002. The permits dated 1992 and 1995 were for Cotija Cheese Company and the permits dated 2002 were for Los Altos Foods. The boilers and the internal combustion engine were natural gas powered. There was one notice of violation issued to Los Alto Foods in 2003 for operating a boiler without venting to a selective catalytic reduction system. The violation case was closed in 2004.

8.5. Los Angeles County Fire Department (LACFD)

Records regarding the site were requested from the LACFD, Health and Hazardous Materials Division. No response was received from this agency. Based on other information obtained during this assessment, there is a low likelihood that information in this file, if any, would change the conclusions and recommendations of this report. Based on the other documentation available for the site, this lack of response is not considered to be a significant data gap.

8.6. Los Angeles County Sanitation District (LACSD)

Records regarding the site were requested from the LACSD, Health and Hazardous Materials Division. No response was received from this agency. Based on other information obtained during this assessment, there is a low likelihood that information in this file, if any, would change the conclusions and recommendations of this report. Based on the other documentation available for the site, this lack of response is not considered to be a significant data gap.

9. FINDINGS, OPINIONS, AND CONCLUSIONS

Based upon the results of this Phase I ESA, the following findings, opinions, and conclusions are provided.

9.1. Findings and Opinions

The following presents a summary of findings and opinions associated with the Phase I ESA for the subject site, including known or suspect RECs, historical RECs, and de minimus environmental conditions (i.e., conditions that generally do not present a material risk of harm to public health or the environment).

- The area of the site was used for agricultural purposes from before 1928 to at least the mid 1950s. The site may have been occupied by a small farm residence in the early 1950s. The properties surrounding the site were mostly developed by 1968. The site was vacant fallow land during the late 1950s and 1960s. The current site building was constructed in 1970/1971. The site has been used for food product manufacturing since it was first developed. At the time of this report, Los Altos Foods manufactures cheese products at the site.

- The site was occupied by a food product manufacturing company. Products manufactured at the site include various cheeses and cream. Hazardous substances and petroleum products used at the site generally include cleaning and disinfecting chemicals and lube oils for machinery and fork lifts. The cleaning and disinfecting chemicals are stored in diluted form in plastic drums and tanks in the chemical storage room at the southern corner of the site building. The cleaning and disinfecting chemicals include mild detergents, dilute chlorine solution, and dilute acidic solution. The cleaning chemicals are piped via plastic tubing from the storage room to the processing area where they are used daily to clean the food processing equipment, storage areas, and floors. The concrete floor of the production area is epoxy-coated to minimize erosion of the concrete by the cleaning chemicals. Petroleum products are used and stored in the maintenance area in the southwest portion of the site building. Several 5-gallon cans of food grade lube oil were stored in the maintenance storage room. Several 5-gallon cans of other various lube oils for machinery and forklifts were also stored in this area. The storage area appeared neat and orderly with no evidence of significant leaks or stains. Based on this information, the use and storage of these chemicals would not be considered and environmental concern to the site.

- No evidence was found for the current or former presence of underground storage tanks (USTs) at the site. Approximately eleven aboveground storage tanks (ASTs) were observed along the southeastern side of the site building. Four of ASTs contain milk, four of the ASTs contain whey, two of the ASTs contain water, and one of the ASTs con-

tains carbon dioxide. The ASTs appeared to be in good condition and no evidence of significant spills or leaks from the ASTs was observed. These ASTs and their contents would not be considered an environmental concern to the site.

- Based on the date of construction (1970/1971), asbestos-containing materials (ACMs) and lead based paint (LBP) are likely to have been used in the building. The interior of the site has been significantly remodeled several times. It was reported that the entire interior of the site building was renovated in 1988. The second floor office addition on the back of the building was constructed in 2000. Based on the interior renovation work at the site, potential or suspected ACMs and LBP could not be identified visually; however, ACMs and LBP may be present in portions of the site building. These materials appeared to be in good condition and could not be considered an immediate concern to the site or occupants.

- Groundwater in the site vicinity is present at approximately 42 to 43 feet below the ground surface (bgs). The groundwater flow direction is generally to the northwest.

- The site is located within the San Gabriel Valley Groundwater Basin. Portions of the San Gabriel Valley Groundwater Basin have been listed on the National Priority List (NPL), or Superfund Site. The site is located within the Puente Valley Operable Unit of the San Gabriel Valley Groundwater Basin. Portions of the Puente Valley Operable Unit are contaminated with volatile organic compounds (VOCs), namely the chlorinated solvents trichloroethene (TCE) and tetrachloroethylene (PCE), which were historically used by the commercial and industrial facilities located in this area. Based on our review, surrounding facilities in the upgradient direction have been named as Potentially Responsible Parties (PRPs), and therefore, it is likely that groundwater beneath the site has been impacted with chlorinated solvents. The site is not listed as a Responsible Party (RP) on the EPA database and there is no known current or historical use of chlorinated solvents at the site. It is unlikely that the site has contributed to the regional groundwater contamination.

- No off-site environmental concerns, other than the regional groundwater contamination, were identified in the site vicinity.

9.2. Conclusions

Ardent has performed this Phase I ESA and Document Review in general conformance with the scope and limitations of the ASTM Practice E 1527-05, and the USEPA Standards and Practices for AAI, Final Rule (40 CFR, Part 312), for the property located at 15130 East Nelson Avenue in the City of Industry, California. Any limitations or exceptions encountered during completion of this report are stated in Section 1.4. No evidence or indication of RECs, or conditions indicative of releases or threatened releases of hazardous substances on, at, in,

or to the subject property has been revealed. Although not considered an REC in accordance with ASTM Standards, ACMs and LBP may be present in portions of the site building.

9.3. Recommendations

Based on the findings of the Phase I ESA, Ardent does not recommend further investigations at this time. Prior to demolition or significant renovation of the on-site building, a comprehensive Hazardous Building Material Survey should be conducted to assess the extent and quantity of hazardous building materials. If present, these materials should be removed from the building prior to demolition or renovation. If the building is to be occupied by a tenant, the tenant should be notified of the possible presence of ACMs in accordance with current regulatory guidelines. Tenants do not need to be notified of possible LBP.

10. QUALIFICATIONS STATEMENT AND SIGNATURE OF ENVIRONMENTAL PROFESSIONAL

Mr. Paul Roberts states that the Phase I ESA was performed under his direct supervision, and that he has reviewed and approved the report, and the methods and procedures employed in the development of the report conform to the minimum industry standards. Mr. Roberts certifies that Ardent project personnel and subcontractors are properly licensed and/or certified to do the work described herein.

Pursuant to Paragraph 12.13 of the ASTM Standard E1527-05:

I declare that, to the best of my professional knowledge and belief, I meet the definition of *Environmental professional* as defined in §312.10 of 40 CFR 312. I have the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject *property*. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Paul A. Roberts, P.G., R.E.A. I/II
Principal Geologist

RELEVANT SITE INFORMATION

Project Name/Address: 15130 East Nelson Ave, Industry

PHASE I ESA/AAI REQUIREMENTS

According to the All Appropriate Inquiry (AAI, 40 CFR 312) requirements and ASTM (E 1527-05) guidance on conducting Phase I Environmental Site Assessments, the "user" of the assessment must provide the following information, if available, to the environmental professional in order to qualify for Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001. Please check yes or no and provide any additional information you may have regarding the site. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete.

(1) Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).
Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state, or local law?

☐ Yes ☒ No

If yes, please explain:

(2) Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).
Are you aware of any activity use limitations (AULs), such as engineering controls, land use restrictions, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

☐ Yes ☒ No

If yes, please explain:

(3) Specialized knowledge or experience of the person/department requesting the Phase I ESA and seeking to qualify for the landowner liability protections (40 CFR 312.28).
As the user of this ESA, do you have any specialized knowledge or experience related to the property or adjoining properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

☐ Yes ☒ No

If yes, please explain:

(4) Relationship of the purchase price to the fair market value of the property, if it were not contaminated (40 CFR 312.29).
Does the purchase price offered for this property reasonably reflect the fair market value of the property? If there is a difference between the purchase price and the fair market value, have you considered whether the lower purchase price is because contamination is known or believed to be at the property?

Please discuss:

(5) Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).
Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,
(a) Do you know the past uses of the property? Yes
(b) Do you know of specific chemicals that are present or once were present at the property? No
(c) Do you know of spills or other chemical releases that have taken place at the property? No
(d) Do you know of any environmental cleanups that have taken place or are ongoing at the property? No

☐ Yes ☐ No

If yes, please explain: Manufacturer and distributor of dairy products and specialty cheeses.

(6) The degree of obviousness of the presence or likely presence of contamination at the property and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).
As the user of this ESA, based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?

☐ Yes ☒ No

If yes, please explain:

PERMIT TO CONSTRUCT/OPERATE

Permit No.
F55552
A/N 406103

This initial permit must be renewed ANNUALLY unless the equipment is moved, or changes ownership.
If the billing for annual renewal fee (Rule 301.f) is not received by the expiration date, contact the District.

LEGAL OWNER
OR OPERATOR: LOS ALTOS FOOD PRODUCTS, INC
15130 NELSON AVE
CITY OF INDUSTRY, CA 91744

ID 133843

Equipment Location: 15130 NELSON AVE, CITY OF INDUSTRY, CA 91744

Equipment Description:

AIR POLLUTION CONTROL SYSTEM CONSISTING OF:

1. SELECTIVE CATALYTIC REDUCTION SYSTEM (SCR), CSM, MODEL 20B-SCR.
2. TWO CYLINDERS, ANHYDROUS AMMONIA, 150 POUNDS EACH.
3. EXHAUST SYSTEM VENTING A 8.37 MMBTU/HR SELLERS BOILER.

Conditions:

1) OPERATION OF THIS EQUIPMENT SHALL BE CONDUCTED IN ACCORDANCE WITH ALL DATA AND SPECIFICATIONS SUBMITTED WITH THE APPLICATION UNDER WHICH THIS PERMIT IS ISSUED UNLESS OTHERWISE NOTED BELOW.

2) THIS EQUIPMENT SHALL BE PROPERLY MAINTAINED AND KEPT IN GOOD OPERATING CONDITION AT ALL TIMES.

3) THIS SCR SYSTEM SHALL BE IN OPERATION WHENEVER THE SELLERS BOILER IT SERVES IS IN OPERATION.

4) THE SCR SHALL BE INSPECTED AND MAINTAINED ACCORDING TO MANUFACTURER'S SPECIFICATIONS. THE INSPECTION AND MAINTENANCE RECORDS SHALL BE RETAINED ON THE PREMISES FOR AT LEAST TWO YEARS AND MADE AVAILABLE TO DISTRICT PERSONNEL UPON REQUEST.

5) THE OPERATOR SHALL INSTALL AND MAINTAIN A TEMPERATURE GAUGE TO ACCURATELY INDICATE THE TEMPERATURE IN DEGREES FAHRENHEIT AT THE INLET OF THE SCR.

6) THE TEMPERATURE OF THE BOILER EXHAUST AT THE INLET OF THE SCR SYSTEM SHALL NOT BE LESS THAN 460 DEGREES FAHRENHEIT. THE PERIOD DURING WHICH THE TEMPERATURE OF THE EXHAUST GASES ENTERING THE SCR SYSTEM ARE LESS THAN 460 DEGREES FAHRENHEIT SHALL NOT EXCEED ONE HOUR FOR EACH COLD START-UP.

FILE COPY

CONTINUATION OF PERMIT TO CONSTRUCT/OPERATE

7) THE OPERATOR SHALL INSTALL AND MAINTAIN A FLOW METER TO ACCURATELY INDICATE THE AMMONIA INJECTION RATE APPLIED TO THE CATALYST BED.

8) THE OPERATOR SHALL MAINTAIN DAILY RECORDS OF SCR INLET TEMPERATURE AND AMMONIA INJECTION RATE IN A FORMAT APPROVED BY THE DISTRICT. THE RECORDS SHALL BE RETAINED ON THE PREMISES FOR AT LEAST TWO YEARS AND MADE AVAILABLE TO DISTRICT PERSONNEL UPON REQUEST.

9) THE MAXIMUM AMMONIA CONCENTRATION AT THE EXIT OF THE CATALYST SHALL NOT EXCEED 10 PARTS PER MILLION BY VOLUME (PPMV), MEASURED BY VOLUME ON A DRY BASIS AT 3% OXYGEN.

10) THE MAXIMUM EMISSIONS RATES FOR OXIDES OF NITROGEN (NOx) AND CARBON MONOXIDE (CO) AT THE EXIT OF THE SCR SYSTEM SHALL NOT EXCEED 12 PPM OF NOX, CALCULATED AS NO2, AND 50 PPM OF CO, ALL MEASURED BY VOLUME ON A DRY BASIS AT 3% O2.

11) THE OWNER OR OPERATOR OF THIS EQUIPMENT SHALL CONDUCT INITIAL AND ANNUAL SOURCE TESTS UNDER THE FOLLOWING CONDITIONS:

A) THE INITIAL SOURCE TEST SHALL BE CONDUCTED WITHIN 90 DAYS AFTER THE INITIAL START-UP OF THE SELECTIVE CATALYTIC REDUCTION SYSTEM UNLESS OTHERWISE APPROVED IN WRITING BY THE EXECUTIVE OFFICER.

B) THE SOURCE TESTS SHALL BE PERFORMED TO VERIFY COMPLIANCE WITH THE NOx, CO, AND AMMONIA EMISSION LIMITS SPECIFIED BY THIS PERMIT.

C) THE TESTS SHALL BE CONDUCTED WHILE THE BOILER IS FIRING AT MAXIMUM, MINIMUM AND AVERAGE FIRING RATES.

D) A WRITTEN NOTICE OF THE SOURCE TESTS SHALL BE SUBMITTED TO THE DISTRICT (ADDRESSED TO SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT, P.O. BOX 4941, DIAMOND BAR, CA 91765) AT LEAST 14 DAYS PRIOR TO TESTING SO THAT AN OBSERVER MAY BE PRESENT.

E) TWO COMPLETE COPIES OF SOURCE TEST REPORTS SHALL BE SUBMITTED TO THE DISTRICT (ADDRESSED TO SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT, P.O. BOX 4941, DIAMOND BAR, CA 91765) WITHIN 45 DAYS AFTER THE TEST.

THE REPORT SHALL INCLUDE, BUT NOT BE LIMITED TO, THE FOLLOWING FOR EACH FIRING RATE:

FILE COPY

CONTINUATION OF PERMIT TO CONSTRUCT/OPERATE

I. EMISSIONS RATES IN POUNDS PER HOUR AND CONCENTRATIONS IN PPMV AT THE OUTLET OF THE SCR, MEASURED ON A DRY BASIS AT 3% OXYGEN, FOR OXIDES OF NITROGEN, CARBON MONOXIDE, AND AMMONIA,
II. THE EXHAUST FLOW RATES, IN ACTUAL CUBIC FEET PER MINUTE (ACFM), AT THE OUTLET OF THE SCR SYSTEM,
III. THE FIRING RATES, IN BTU PER HOUR,
IV. THE OXYGEN CONTENT OT THE EXHAUST GASES, IN PERCENT,
V. THE FUEL FLOW RATE,
VI. THE AMMONIA USAGE, AND
VII. THE INLET TEMPERATURE TO THE SCR SYSTEM.

F) SOURCE TEST REPORTS SHALL BE RETAINED ON THE PREMISES FOR AT LEAST TWO YEARS AND MADE AVAILABLE TO DISTRICT PERSONNEL UPON REQUEST.

G) THE TEST SHALL BE CONDUCTED BY A TESTING LABORATORY CERTIFIED BY THE CALIFORNIA AIR RESOURCES BOARD IN THE REQUIRED TEST METHODS FOR CRITERIA POLLUTANT TO BE MEASURED, AND IN COMPLIANCE WITH RULE 304 (NO CONFLICT OF INTEREST).

H) SAMPLING FACILITIES SHALL COMPLY WITH THE DISTRICT GUIDELINES FOR CONSTRUCTION OF SAMPLING AND TESTING FACILITIES, PURSUANT TO RULE 217.

12) THE OPERATOR OF THE BOILER AND SCR SYSTEM SHALL COMPLY WITH ANNUAL SOURCE TESTING REQUIREMENTS FOR BOILERS IN SUBDIVISION (d)--COMPLIANCE DETERMINATION OF RULE 1146.

NOTICE

IN ACCORDANCE WITH RULE 206, THIS PERMIT TO OPERATE OR COPY SHALL BE POSTED ON OR WITHIN 8 METERS OF THE EQUIPMENT.

THIS PERMIT DOES NOT AUTHORIZE THE EMISSION OF AIR CONTAMINANTS IN EXCESS OF THOSE ALLOWED BY DIVISION 26 OF THE HEALTH AND SAFETY CODE OF THE STATE OF CALIFORNIA OR THE RULES OF THE AIR QUALITY MANAGEMENT DISTRICT. THIS PERMIT CANNOT BE CONSIDERED AS PERMISSION TO VIOLATE EXISTING LAWS, ORDINANCES, REGULATIONS OR STATUTES OF OTHER GOVERNMENT AGENCIES.

EDR City Directory Abstract

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening report designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Fidelity National Title Company

PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein, ***Fidelity National Title Company*** *hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Fidelity National Title Insurance Company, a California corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

APN: 8208-011-011

AT THE DATE HEREOF, ITEMS TO BE CONSIDERED AND EXCEPTIONS TO COVERAGE IN ADDITION TO THE PRINTED EXCEPTIONS AND EXCLUSIONS IN SAID POLICY FORM WOULD BE AS FOLLOWS:

1. **Property taxes**, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2007-2008.

2. **The lien of supplemental taxes**, if any, assessed pursuant to the provisions of Chapter 3.5 (Commencing with Section 75) of the Revenue and Taxation code of the State of California.

3. **Water rights, claims or title to water**, whether or not disclosed by the public records.

4. **Easement(s)** for the purpose(s) shown below and rights incidental thereto as granted in a document.

Granted to:	Southern California Edison Company , a corporation
Purpose:	Public utilities
Recorded:	November 20, 1992, Instrument No. 92-2173036, of Official Records
Affects:	Said land

Reference is made to said document for full particulars.

5. **A deed of trust** to secure an indebtedness in the amount shown below, and any other obligations secured thereby

Amount:	$1,350,000.00
Dated:	October 15, 1998
Trustor:	Raul Andrade and Gloria Andrade, husband and wife as joint tenants
Trustee:	Community Bank
Beneficiary:	Community Bank
Loan No.:	None shown
Recorded:	October 20, 1998, Instrument No. 98-1915812, of Official Records

6. **An unrecorded lease** with certain terms, covenants, conditions and provisions set forth therein as disclosed by the document

Entitled:	Subordination Agreement
Lessor:	Gloria Andrade, husband and wife as joint tenants
Lessee:	Los Altos Food Products, Inc.
Recorded:	October 20, 1998, Instrument No. 98-1915813, of Official Records

The present ownership of the leasehold created by said lease and other matters affecting the interest of the lessee are not shown herein.

An agreement (and the provisions contained therein) which states that said lease is subordinate to the Deed of Trust
Recorded: October 20, 1998, Instrument No. 98-1915812, of Official Records

By document
Recorded: October 20, 1998, Instrument No. 98-1915813, of Official Records

7. **Any rights of the parties in possession** of a portion of, or all of, said land, which rights are not disclosed by the public record.

This Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage. The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

8. **Any invalidity or defect** in the title of the vestees in the event that the trust referred to herein is invalid or fails to grant sufficient powers to the trustee(s) or in the event there is a lack of compliance with the terms and provisions of the trust instrument.

If title is to be insured in the trustee(s) of a trust, (or if their act is to be insured), this Company will require a **Trust Certification pursuant to California Probate Code Section 18100.5.** The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

9. **This company will require a statement of information** from the parties named below in order to complete this report, based on the effect of documents, proceedings, liens, decrees, or other matters which do not specifically describe said land, but which, if any do exist, may affect the title or impose liens or encumbrances thereon. After review of the requested Statement(s) of Information the Company may have additional requirements before the issuance of any policy of title insurance.

Parties: All parties

(Note: The statement of information is necessary to complete the search and examination of title under this order. Any title search includes matters that are indexed by name only, and having a completed statement of information assists the Company in the elimination of certain matters which appear to involve the parties but in fact affect another party with the same or similar name. Be assured that the statement of information is essential and will be kept strictly confidential to this file).

END OF ITEMS

Note 1. Property taxes for the fiscal year shown below are PAID. For proration purposes the amounts are:

Tax Identification No.:	8208-011-011
Fiscal Year:	2006 - 2007
1st Installment:	$20,195.75
2nd Installment:	$20,195.74
Amount:	$0.00
Exemption:	$0.00
Land:	$991,616.00
Improvements:	$981,189.00
Personal Property:	$0.00
Code Area:	0004398

Note 2. The Company is not aware of any matters which would cause it to decline to attach the CLTA Endorsement Form 116 indicating that there is located on said land commercial known as 15130 Nelson Avenue, City of Industry, CA to an Extended Coverage Loan Policy.

Note 3. The only deeds affecting said land, which recorded within twenty-four (24) months of the date of this report, as are follows:

Grantor:	Raul Andrade and Gloria Andrade
Grantee:	Raul Andrade and Gloria Andrade, Trustees of the Raul Andrade and Gloria Andrade Family Trust dated October 24, 1997
Recorded:	December 13, 2006, Instrument No. 06-2772133, of Official Records

Note 4. If you are aware of any improvements whatsoever that have been recently completed, that are ongoing, or contemplated prior to closing, this office must be informed of these facts immediately so that your transaction is not delayed.

Note 5. The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

Note 6. If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.

Note 7. Wiring instructions for Fidelity National Title Company, Corona, CA, are as follows:

Receiving Bank:	Union Bank of California (800) 849-6466 Irvine, CA 92614
ABA Routing No.:	122000496
Credit Account Name:	Fidelity National Title Company - Major Accounts Payoff/Admin 1315 Corona Point Court, Corona, CA 92879
Credit Account No.:	9100586999
Reference No.:	07-**725106882**

These wiring instructions are for this specific transaction involving the Title Department of the Newport Beach office of Fidelity National Title Company. These instructions therefore should not be used in other transactions without first verifying the information with our accounting department. It is imperative that the wire text be exactly as indicated. Any extraneous information may cause unnecessary delays in confirming the receipt of funds.

Note 8. Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of an agent, an authorized employee of the insured lender, or by using Bancserv or other approved third-party service. If the above requirements cannot be met, please call the company at the number provided in this report.

ATTACHMENT ONE

AMERICAN LAND TITLE ASSOCIATION
RESIDENTIAL TITLE INSURANCE POLICY (6-1-87) EXCLUSIONS

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning:
   - land use
   - improvements on the land
   - land division
   - environmental protection

   This exclusion does not apply to violations or the enforcement of these matters which appear in the public records at policy date.
   This exclusion does not limit the zoning coverage described in Items 12 and 13 of Covered Title Risks.
2. The right to take the land by condemning it, unless:
   - a notice of exercising the right appears in the public records on the Policy Date
   - the taking happened prior to the Policy Date and is binding on you if you bought the land without knowledge of the taking
3. Title Risks:
   - that are created, allowed, or agreed to by you
   - that are known to you, but not to us, on the Policy Date- unless they appeared in the public records
   - that result in no loss to you
   - that first affect your title after the Policy Date – this does not limit the labor and material lien coverage in Item 8 of Covered Title Risks
4. Failure to pay value for your title.
5. Lack of a right:
   - to any land outside the area specifically described and referred to in Item 3 of Schedule A
     or
   - in streets, alleys, or waterways that touch your land

   This exclusion does not limit the access coverage in Item 5 of Covered Title Risks.

In addition to the Exclusions, you are not insured against loss, costs, attorneys' fees, and the expenses resulting from:

1. Any rights, interests, or claims of parties in possession of the land not shown by the public records.
2. Any easements or liens not shown by the public records. This does not limit the lien coverage in Item 8 of Covered Title Risks.
3. Any facts about the land which a correct survey would disclose and which are not shown by the public records. This does not limit the forced removal coverage in Item 12 of Covered Title Risks.
4. Any water rights or claims or title to water in or under the land, whether or not shown by the public records.

CALIFORNIA LAND TITLE ASSOCIATION STANDARD COVERAGE POLICY – 1990
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims, or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

SCHEDULE B, PART I
EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

PART I

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the public records.

AMERICAN LAND TITLE ASSOCIATION LOAN POLICY (10-17-92)
WITH A.L.T.A. ENDORSEMENT-FORM 1 COVERAGE
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims, or other matters:
   (a) created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy (except to the extent that this policy insures the priority of the lien of the insured mortgage over any statutory lien for services, labor or material or to the extent insurance is afforded herein as to assessments for street improvements under construction or completed at Date of Policy); or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any statutory lien for services, labor or materials (or the claim of priority of any statutory lien for services, labor or materials over the lien of the insured mortgage) arising from an improvement or work related to the land which is contracted for and commenced subsequent to Date of Policy and is not financed in whole or in part by proceeds of the indebtedness secured by the insured mortgage which at Date of Policy the insured has advanced or is obligated to advance.
7. Any claim, which arises out of the transaction creating the interest of the mortgagee insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:
   (i) the transaction creating the interest of the insured mortgagee being deemed a fraudulent conveyance or fraudulent transfer; or
   (ii) the subordination of the interest of the insured mortgagee as a result of the application of the doctrine of equitable subordination; or
   (iii) the transaction creating the interest of the insured mortgagee being deemed a preferential transfer except where the preferential transfer results from the failure:
      (a) to timely record the instrument of transfer; or
      (b) of such recordation to impart notice to a purchaser for value or a judgement or lien creditor.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage.
In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.

ATTACHMENT ONE
(CONTINUED)

2006 AMERICAN LAND TITLE ASSOCIATION LOAN POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage.
In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY (10-17-92)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building and zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims, or other matters:
   (a) created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy, or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the estate or interest insured by this policy.
4. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that is based on:
   (i) the transaction creating the estate or interest insured by this policy being deemed a fraudulent conveyance or fraudulent transfer; or
   (ii) the transaction creating the estate or interest insured by this policy being deemed a preferential transfer except where the preferential transfer results from the failure:
      (a) to timely record the instrument of transfer; or
      (b) of such recordation to impart notice to a purchaser for value or a judgement or lien creditor.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage.
In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records. Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.

2006 AMERICAN LAND TITLE ASSOCIATION OWNER'S POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
   Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage.
In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (10-22-03)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (10-22-03)
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of any law or government regulation. This includes ordinances, laws and regulations concerning:
   a. building
   b. zoning
   c. Land use
   d. improvements on Land
   e. Land division
   f. environmental protection

   This Exclusion does not apply to violations or the enforcement of these matters if notice of the violation or enforcement appears in the Public Records at the Policy Date.
   This Exclusion does not limit the coverage described in Covered Risk 14, 15, 16, 17 or 24.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not apply to violations of building codes if notice of the violation appears in the Public Records at the Policy Date.
3. The right to take the Land by condemning it, unless:
   a. notice of exercising the right appears in the Public Records at the Policy Date; or
   b. the taking happened before the Policy Date and is binding on You if You bought the Land without Knowing of the taking.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they appear in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they appear in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date – this does not limit the coverage described in Covered Risk 7, 8.d, 22, 23, 24 or 25.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any Land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 18.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 14, 15, 16 and 18, Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 14:	1.00% of Policy Amount or $ 2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 15:	1.00% of Policy Amount or $ 5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 16:	1.00% of Policy Amount or $ 5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 18:	1.00% of Policy Amount or $ 2,500.00 (whichever is less)	$ 5,000.00

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (10/13/01)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating to (i) the occupancy, use, or enjoyment of the Land; (ii) the character, dimensions or location of any improvements now or hereafter erected on the Land; (iii) a separation in ownership or a change in the dimensions or areas of the Land or any parcel of which the Land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the Land has been recorded in the Public Records at Date of Policy. This exclusion does not limit the coverage provided under Covered Risks 12, 13, 14, and 16 of this policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or a notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the Land has been recorded in the Public Records at Date of Policy. This exclusion does not limit the coverage provided under Covered Risks 12, 13, 14, and 16 of this policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the Public Records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without Knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) created, suffered, assumed or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (this paragraph does not limit the coverage provided under Covered Risks 8, 16, 18, 19, 20, 21, 22, 23, 24, 25 and 26); or
   (e) resulting in loss or damage which would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of the Insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with applicable doing business laws of the state in which the Land is situated.
5. Invalidity or unenforceability of the lien of the Insured Mortgage, or claim thereof, which arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, except as provided in Covered Risk 27, or any consumer credit protection or truth in lending law.
6. Real property taxes or assessments of any governmental authority which become a lien on the Land subsequent to Date of Policy. This exclusion does not limit the coverage provided under Covered Risks 7, 8(e) and 26.
7. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This exclusion does not limit the coverage provided in Covered Risk 8.
8. Lack of priority of the lien of the Insured Mortgage as to each and every advance made after Date of Policy, and all interest charged thereon, over liens, encumbrances and other matters affecting the title, the existence of which are Known to the Insured at:
   (a) The time of the advance; or
   (b) The time a modification is made to the terms of the Insured Mortgage which changes the rate of interest charged, if the rate of interest is greater as a result of the modification than it would have been before the modification. This exclusion does not limit the coverage provided in Covered Risk 8.
9. The failure of the residential structure, or any portion thereof to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This exclusion does not apply to violations of building codes if notice of the violation appears in the Public Records at Date of Policy.

Notice

You may be entitled to receive a $20.00 discount on escrow services if you purchased, sold or refinanced residential property in California between May 19, 1995 and November 1, 2002. If you had more than one qualifying transaction, you may be entitled to multiple discounts.

If your previous transaction involved the same property that is the subject of your current transaction, you do not have to do anything; the Company will provide the discount, provided you are paying for escrow or title services in this transaction.

If your previous transaction involved property different from the property that is subject of your current transaction, you must - prior to the close of the current transaction - inform the Company of the earlier transaction, provide the address of the property involved in the previous transaction, and the date or approximate date that the escrow closed to be eligible for the discount.

Unless you inform the Company of the prior transaction on property that is not the subject of this transaction, the Company has no obligation to conduct an investigation to determine if you qualify for a discount. If you provide the Company information concerning a prior transaction, the Company is required to determine if you qualify for a discount which is subject to other terms and conditions.

Fidelity National Title Group of Companies' Privacy Statement

July 1, 2001

We recognize and respect the privacy expectations of today's consumers and the requirements of applicable federal and state privacy laws. We believe that making you aware of how we use your non-public personal information ("Personal Information"), and to whom it is disclosed, will form the basis for a relationship of trust between us and the public that we serve. This Privacy Statement provides that explanation. We reserve the right to change this Privacy Statement from time to time consistent with applicable privacy laws.

In the course of our business, we may collect Personal Information about you from the following sources:

- From applications or other forms we receive from you or your authorized representative;
- From your transactions with, or from the services being performed by, us, our affiliates, or others;
- From our internet web sites;
- From the public records maintained by governmental entities that we either obtain directly from those entities, or from our affiliates or others; and
- From consumer or other reporting agencies.

Our Policies Regarding the Protection of the Confidentiality and Security of Your Personal Information

We maintain physical, electronic and procedural safeguards to protect your Personal Information from unauthorized access or intrusion. We limit access to the Personal Information only to those employees who need such access in connection with providing products or services to you or for other legitimate business purposes.

Our Policies and Practices Regarding the Sharing of Your Personal Information

We may share your Personal Information with our affiliates, such as insurance companies, agents, and other real estate settlement service providers. We also may disclose your Personal Information:

- to agents, brokers or representatives to provide you with services you have requested;
- to third-party contractors or service providers who provide services or perform marketing or other functions on our behalf; and
- to others with whom we enter into joint marketing agreements for products or services that we believe you may find of interest.

In addition, we will disclose your Personal Information when you direct or give us permission, when we are required by law to do so, or when we suspect fraudulent or criminal activities. We also may disclose your Personal Information when otherwise permitted by applicable privacy laws such as, for example, when disclosure is needed to enforce our rights arising out of any agreement, transaction or relationship with you.

One of the important responsibilities of some of our affiliated companies is to record documents in the public domain. Such documents may contain your Personal Information.

Right to Access Your Personal Information and Ability to Correct Errors or Request Changes or Deletion

Certain states afford you the right to access your Personal Information and, under certain circumstances, to find out to whom your Personal Information has been disclosed. Also, certain states afford you the right to request correction, amendment or deletion of your Personal Information. We reserve the right, where permitted by law, to charge a reasonable fee to cover the costs incurred in responding to such requests.

All requests must be made in writing to the following address:

Fidelity National Title Group, Inc.
Privacy Compliance Officer
601 Riverside Avenue
Jacksonville, FL 32204

Multiple Products or Services

If we provide you with more than one financial product or service, you may receive more than one privacy notice from us. We apologize for any inconvenience this may cause you.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

FEDERAL RECORDS

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 01/25/2007 has revealed that there are 2 NPL sites within approximately 1 mile of the target property.

CERCLIS: The Comprehensive Environmental Response, Compensation and Liability Information System contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the CERCLIS list, as provided by EDR, and dated 02/27/2007 has revealed that there is 1 CERCLIS site within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

RCRAInfo: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System(RCRIS). The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month Large quantity generators generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-LQG list, as provided by EDR, and dated 06/13/2006 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 02/27/2007 has revealed that there is 1 ENVIROSTOR site within approximately 1 mile of the target property.

Site Description: The Puente Valley Operable Unit (PVOU) is located within the southeastern portion of the San Gabriel Valley, approximately 25 miles from the Pacific Coast, in eastern Los Angeles County. Located within the San Gabriel Valley is the San Gabriel Basin. The majority of the groundwater pumped from the main San Gabriel Basin is used for drinking water, supplied to the public by purveyors that are regulated as public water supply systems. Land use at the site includes industrial, commercial, and residential.The San Gabriel Valley has been the subject of environmental investigation since 1979 when groundwater contaminated with volatile organic compounds (VOCs) was first identified. In May 1984, four broad areas of contamination within the basin were listed as San Gabriel Areas 1 through 4 on the Environmental Protection Agency's (EPA's) National Priorities List (NPL). EPA subsequently divided the basin into eight operable units (OUs) to provide a means of describing hydrogeology and contaminant distribution, and planning remedial activities in the basin.In May 1993, EPA sent Special Notice letters to 58 potentially responsible parties (PRPs), requesting that these parties present a good faith offer to perform the remedial investigation/feasibility study (RI/FS) for the PVOU. Forty-two of these PRPs formed the Puente Valley Steering Committee (PVSC), and in September 1993 entered into an administrative order on consent (AOC) with EPA to conduct the RI/FS. Also in September 1993, EPA issued a unilateral administrative order (UAO) to two PRPs, Goe Engineering and Diversey Corporation, that failed to present a good faith offer. Diversey Corporation completed the activities that the UAO required in 1996, and the PVSC and EPA completed the RI/FS in May 1997.PRPs in the EL Monte and South El Monte OUs have entered into AOCs to perform the RI/FS for their respective OUs. EPA also issued UAOs to two parties in the El Monte OU. In the Baldwin Park OU, EPA issued a ROD in March 1993.After the Interim ROD was signed, and Special Notice letters were sent out, the PRPs were unable to make a unified offer for all of the work (i.e., shallow zone and intermediate zone cleanup, and Mid-Valley monitoring). In an effort to keep the cleanup process moving forward as expeditiously as possible, EPA carved out implementation of the remedy such that the intermediate and shallow zone work would be conducted by two different PRP groups or parties.An Explanation of Significant Differences (ESD) addressing the emerging contaminants perchlorate and 1,4-dioxane at OU 1 was completed on June 14, 2005.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

CERCLIS (Comprehensive Environmental Response, Compensation, and Liability Information System) is the Superfund database that is used to support management in all phases of the Superfund program. The system contains information on all aspects of hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

Summary Details:

Conditions at listing September 1983): San Gabriel Valley Area 4) is a ground water plume that runs along the axis of the San Jose Creek in the San Gabriel ground water basin in La Puenta, Los Angeles County, California. The plume is about1 mile long and 1 mile wide. Ground water is contaminated with trichloroethylene TCE) and perchloroethylene PCE), according to analyses by State agencies and local water companies. Many public wells in the area exceed the EPA SuggestedNo Adverse Response Levels SNARL) for TCE and PCE. Approximately 100,000 people are affected. Cities and public water companies in the area have tested to ensure that their water supplies contain less than 5 parts per billion ppb) of TCE, alevel considered safe for human consumption. When alternative methods of reducing the TCE level below 5 ppb are not effective, wells are removed from service. Status June 1984):
A supplemental sampling program of contaminated wells will begin soon to get a snapshot view of the degree of contamination. The State Department of

SAN GABRIEL VALLEY (AREA 4) (Continued) **1000114960**

Health Services and EPA are preparing to initiate a remedial investigation/ feasibility study to determine the aerial and vertical extent of contamination and to develop alternatives for treatment and management of the problem. EPA continues its investigation to identify sources of the contamination. This site, along with the three other San Gabriel Valley sites, was added tothe NPL in May 1984 because it involves a serious problem that required taking immediate remedial action.

Site Description: Four areas of groundwater contamination are listed on the National Priorities List: San Gabriel Valley Area 1, San Gabriel Valley Area 2, San Gabriel Valley 3, and San Gabriel Valley 4. The four areas represent a significant portion of the 170 square mile San Gabriel Valley in Los Angeles County, California. More than one million residents live in the San Gabriel Valley alongside a variety of commercial and industrial operations. The San Gabriel Aquifer, which underlies most of the San Gabriel Valley Basin, stores an estimated three trillion gallons of water and is the primary source of water for most of the Basin?s residents. Major surface water features in the San Gabriel Valley include the San Gabriel River, tributaries to the SanGabriel River system, and spreading basins located in or adjacent to the river channels.The approximate location of the San Gabriel Valley Area 2 Site is west of highway 39, south of the San Gabriel Mountains, east of the San Gabriel River, and north of Walnut Creek. Nearly all of the Baldwin Park area is fully developed for residential, commercial, and industrial use. The largest parcels of open land are active and inactive gravel pits and the Santa Fe flood Control Basin. Water purveyors in the site area include: the City of Azusa, California Domestic Water Company, City of Glendora, La Puente Valley County Water District, San Gabriel Valley Water Company, Suburban Water Systems, and Valley County Water District.Volatile Organic Compounds (VOCs), major contaminants of concern at the San Gabriel Valley Sites, were used in large quantities at industrial facilities as early as the 1940?s. From the 1940?s through the 1980?s, carbon tetrachloride, tetrachloroethane, thrichlorethene, and other chlorinated solvents were used by hundreds of businesses for degreasing, as raw materials for automotive products, by a solvent recycler, for chemical extractions , and for other purposes. VOCs have been released by acombination of intentional disposal, careless handling during loading and unloading, leaking tanks and pipes, and other means. VOCs were not detected in ground water until 1979 during environmental monitoring activities conducted by Aerojet Electrosystems near its facility in Azusa.In May 1984, EPA listed four areas of contamination were listed as San Gabriel Valley Area 1 through 4. EPA began its enforcement efforts in the site area in 1985 with searches for and evaluations of historical Federal, State, and local records on chemical usage, handling, and disposal. In 1985, the California Regional Water Quality Board began its Well Investigation Program (WIP) to identify the sources of ground water contamination detected in water supply wells. In 1989, EPA entered into a cooperative agreement to expand the WIP program to determine the nature and

SAN GABRIEL VALLEY (AREA 2) (Continued) **1000114961**

extent of contamination in the San Gabriel Valley. The RI/FS for the Baldwin Park OU was conducted concurrently with source identification efforts, as a fund-lead project. In March 1994, the Record of Decision (ROD) document was signed.

CERCLIS (Comprehensive Environmental Response, Compensation, and Liability Information System) is the Superfund database that is used to support management in all phases of the Superfund program. The system contains information on all aspects of hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

Scoring: 2

Summary Details:

Conditions at listing September 1983): San Gabriel Valley Area 2) is a ground water plume that parallels the San Gabriel River to the west in the San Gabriel ground water basin in the Baldwin Park area of Los Angeles County, California. The plume is about 7.5 miles long and 1.5 miles wide. Ground water is contaminated with trichloroethylene TCE), perchloroethylene PCE), and carbon tetrachloride, according to analyses by State agencies and local water companies. Many public wells in the area exceed the EPA Suggested No Adverse Response Levels SNARL) for TCE and PCE. Approximately 100,000 people are affected. Cities and public water companies in the area have tested to ensure that their water supplies containless than 5 parts per billion ppb) of TCE, a level considered safe for human consumption. When alternative methods of reducing the TCE level below 5 ppb are not effective, wells are removed from service. Status June 1984): A supplemental sampling program of contaminated wells will begin soon to get a snapshot view of the degree of contamination. The State Department of Health Services and EPA are preparing to initiate a remedial investigation/ feasibility study to determine the aerial and vertical extent of contamination and to develop alternatives for treatment and management of the problem. EPA continues its investigation to identify sources of the contamination. This site, along with the threeother San Gabriel Valley sites, was added to the NPL in May 1984 because it involves a serious problem that required taking immediate remedial action.

CERCLIS (Comprehensive Environmental Response, Compensation, and Liability Information System) is the Superfund database that is used to support management in all phases of the Superfund program. The system contains information on all aspects of hazardous waste sites, including an inventory of sites, planned and actual site activities, and financial information.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

SIC Code:	5015
SIC Code 2:	Not reported
Primary Waste:	Stormwater Runoff
Primary Waste Type:	Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
Secondary Waste:	Not reported
Secondary Waste Type:	Not reported
Design Flow:	Not reported
Baseline Flow:	Not reported
Reclamation:	No reclamation requirements associated with this facility.
POTW:	The POTW Does not have an approved pretreatment program. Some POTWs may have local pretreatment programs that have not been approved by the regional board and/or EPA.
Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Other Pertinent Environmental Activity Identified at Site

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

EPA Waste Codes Addendum

Code	Description
D001	IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
D002	A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
D006	CADMIUM
D007	CHROMIUM
D009	MERCURY
F001	THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLOROETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE, AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

FEDERAL RECORDS

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 01/25/2007

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 09/27/2006

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991
Date Data Arrived at EDR: 02/02/1994
Date Made Active in Reports: 03/30/1994

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/27/2007
Date Data Arrived at EDR: 03/21/2007

Last EDR Contact: 03/21/2007
Next Scheduled EDR Contact: 06/18/2007
Data Release Frequency: Quarterly

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 03/21/2007

RCRA: Resource Conservation and Recovery Act Information

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS). The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month. Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator off-site to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

US BROWNFIELDS: A Listing of Brownfields Sites

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

EDR PROPRIETARY RECORDS

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Historical Auto Stations: EDR Proprietary Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 12/31/2004
Date Data Arrived at EDR: 02/17/2006

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data
Source: PennWell Corporation
Telephone: (800) 823-6277
This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Telephone: 916-657-4041

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

Elevation:	314 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	34117-A8 BALDWIN PARK, CA
Most Recent Revision:	1981

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

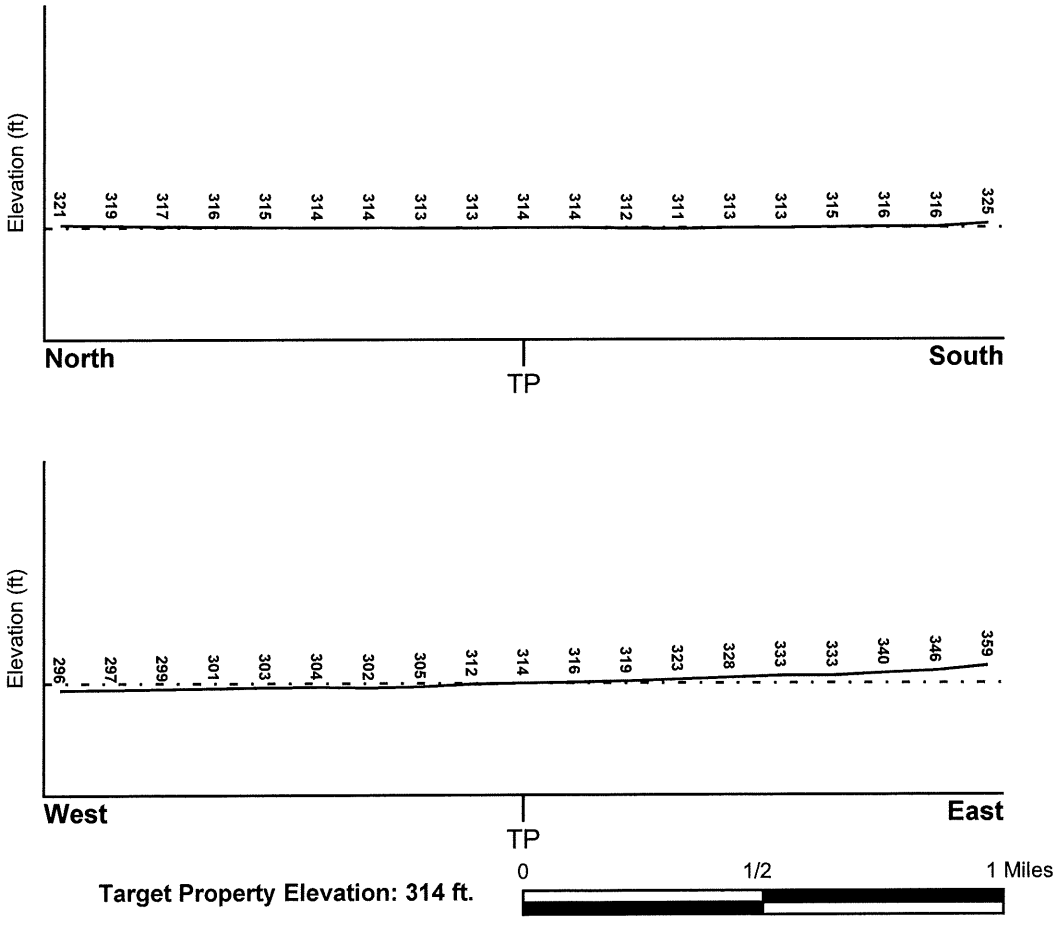
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
NOT AVAILABLE	Not Available

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	0 - 1/8 Mile WNW
Site Name:	Brough Industries Inc.
Site EPA ID Number:	CAD983633710
Groundwater Flow Direction:	NOT AVAILABLE.
Measured Depth to Water:	not available.
Hydraulic Connection:	Aquifers under the site are most likely hydraulically connected.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information is inferred in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Quaternary
Series:	Quaternary
Code:	Q *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratifed Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	URBAN LAND
Soil Surface Texture:	variable
Hydrologic Group:	Not reported
Soil Drainage Class:	Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel:	Not Reported
Depth to Bedrock Min:	> 10 inches
Depth to Bedrock Max:	> 10 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures:
loam
clay
silt loam
loamy sand
sandy loam
fine sand
clay loam
gravelly - sandy loam
coarse sand
gravelly - sand
sand

Surficial Soil Types:
loam
clay
silt loam
loamy sand
sandy loam
fine sand
clay loam
gravelly - sandy loam
coarse sand
gravelly - sand
sand

Shallow Soil Types:
fine sandy loam
gravelly - loam
sand
silty clay

Deeper Soil Types:
stratified
clay loam
silty clay loam
gravelly - sandy loam
coarse sand
sand
weathered bedrock
very fine sandy loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

Sample Collected:	07/15/2004 00:00:00	Findings:	- .006
Chemical:	LANGELIER INDEX @ 60 C		
Sample Collected:	07/15/2004 00:00:00	Findings:	9.9 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	08/03/2004 00:00:00	Findings:	4 PCI/L
Chemical:	URANIUM (PCI/L)		
Sample Collected:	08/03/2004 00:00:00	Findings:	3.7 PCI/L
Chemical:	GROSS ALPHA COUNTING ERROR		
Sample Collected:	08/03/2004 00:00:00	Findings:	5.1 UG/L
Chemical:	TETRACHLOROETHYLENE		
Sample Collected:	08/03/2004 00:00:00	Findings:	1.1 UG/L
Chemical:	1,1-DICHLOROETHYLENE		
Sample Collected:	08/03/2004 00:00:00	Findings:	2.3 UG/L
Chemical:	TRICHLOROETHYLENE		
Sample Collected:	08/03/2004 00:00:00	Findings:	10.2 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	07/15/1999 00:00:00	Findings:	.45 MG/L
Chemical:	FLUORIDE (F) (NATURAL-SOURCE)		
Sample Collected:	07/15/1999 00:00:00	Findings:	7.2 UG/L
Chemical:	TETRACHLOROETHYLENE		
Sample Collected:	07/15/1999 00:00:00	Findings:	1.4 UG/L
Chemical:	1,1-DICHLOROETHYLENE		
Sample Collected:	07/15/1999 00:00:00	Findings:	2.7 UG/L
Chemical:	TRICHLOROETHYLENE		
Sample Collected:	07/15/1999 00:00:00	Findings:	8.77 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	07/15/1999 00:00:00	Findings:	.6 UG/L
Chemical:	CIS-1,2-DICHLOROETHYLENE

Chemical:	TRICHLOROETHYLENE		
Sample Collected:	10/17/2000 00:00:00	Findings:	20.2 MG/L
Chemical:	NITRATE (AS NO3)		

Sample Collected:	10/17/2000 00:00:00	Findings:	4560 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	10/24/2000 00:00:00	Findings:	20.3 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	10/24/2000 00:00:00	Findings:	4590 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	11/01/2000 00:00:00	Findings:	22.1 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	11/01/2000 00:00:00	Findings:	4990 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	11/06/2000 00:00:00	Findings:	5.9 UG/L
Chemical:	PERCHLORATE		
Sample Collected:	11/08/2000 00:00:00	Findings:	20 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	11/08/2000 00:00:00	Findings:	4520 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	11/13/2000 00:00:00	Findings:	21.5 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	11/13/2000 00:00:00	Findings:	4860 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	11/20/2000 00:00:00	Findings:	21.8 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	11/20/2000 00:00:00	Findings:	4920 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	11/28/2000 00:00:00	Findings:	20.9 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	11/28/2000 00:00:00	Findings:	4720 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	12/05/2000 00:00:00	Findings:	19.6 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	12/05/2000 00:00:00	Findings:	4430 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	12/06/2000 00:00:00	Findings:	6.2 UG/L
Chemical:	PERCHLORATE		
Sample Collected:	12/12/2000 00:00:00	Findings:	21 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	12/12/2000 00:00:00	Findings:	4740 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	12/19/2000 00:00:00	Findings:	20.9 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	12/19/2000 00:00:00	Findings:	4720 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	12/26/2000 00:00:00	Findings:	19.8 MG/L
Chemical:	NITRATE (AS NO3)		

Sample Collected:	12/26/2000 00:00:00	Findings:	4470 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	01/02/2001 00:00:00	Findings:	20 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	01/02/2001 00:00:00	Findings:	4500 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	01/08/2001 00:00:00	Findings:	7.4 UG/L
Chemical:	PERCHLORATE		
Sample Collected:	01/08/2001 00:00:00	Findings:	20 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	01/09/2001 00:00:00	Findings:	21 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	01/09/2001 00:00:00	Findings:	4700 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	01/16/2001 00:00:00	Findings:	20 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	01/16/2001 00:00:00	Findings:	4500 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	01/23/2001 00:00:00	Findings:	20 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	01/23/2001 00:00:00	Findings:	4500 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	01/29/2001 00:00:00	Findings:	.63 UG/L
Chemical:	TRICHLOROETHYLENE		
Sample Collected:	01/30/2001 00:00:00	Findings:	20 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	01/30/2001 00:00:00	Findings:	4500 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	02/05/2001 00:00:00	Findings:	.76 UG/L
Chemical:	TRICHLOROETHYLENE		
Sample Collected:	02/05/2001 00:00:00	Findings:	7.5 UG/L
Chemical:	PERCHLORATE		
Sample Collected:	02/06/2001 00:00:00	Findings:	24 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	02/06/2001 00:00:00	Findings:	5400 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	02/13/2001 00:00:00	Findings:	.55 UG/L
Chemical:	TRICHLOROETHYLENE		
Sample Collected:	02/14/2001 00:00:00	Findings:	13 MG/L
Chemical:	NITRATE (AS NO3)		
Sample Collected:	02/14/2001 00:00:00	Findings:	2900 UG/L
Chemical:	NITRATE + NITRITE (AS N)		
Sample Collected:	02/20/2001 00:00:00	Findings:	.54 UG/L
Chemical:	TRICHLOROETHYLENE
