

2018 POWER CONTENT LABEL GENERAL INSTRUCTIONS

Please note: Power Source Disclosure (PSD) regulations require that retail suppliers use the Power Content Label (PCL) template posted annually, and retail suppliers may not edit the PCL template in any way.

Please follow these instructions:

1. If you offer a single product for your customers, please use the PCL template located on the "PCL, Single Product" tab. **If you offer additional products, use the PCL template which correlates with the number of products offered.**

2. Enter the Retail Supplier Name in Row 3 of each applicable template.

3. Enter the Website URL for PCL Posting in Row 4 of each applicable template.

4. If you use any of the templates with more than one product, enter the names for each product in the spaces provided.

5. Enter the percentages for each resource category calculated in your PSD Annual Report (Schedule 2) on the appropriate lines. Note that the line for Eligible Renewable will calculate automatically based on data entry in the specific category lines. The resources must add up to 100%. The template automatically rounds each percentage to the nearest integer. Do not format the cells to allow for decimal percentages.

6. Enter the retail supplier name and phone number at the bottom of the Label.

7. Submit an electronic copy (in both Excel and PDF formats) of the final version of the PCL to the Energy Commission at: PSDprogram@energy.ca.gov

8. Provide the PCL to customers as required by the PSD Regulation:
<https://efiling.energy.ca.gov/getdocument.aspx?tn=216978>

If you have questions, please contact Energy Commission staff at 916-653-0237 or PSDprogram@energy.ca.gov
